-

Step 1 — Battery

- Carefully slide an opening pick between the the rear cover and the body of the phone.
- Using the pick, separate the cover from the back of the phone.
- Remove the rear cover.

Step 2

- Insert a plastic opening tool into the small recess at the bottom of the battery.
- Use the plastic opening tool to lift up the bottom of the battery.
- Remove the battery from the phone.

Once you have placed your phone case back on your device, it should be fully functional.
